THE CAPITOL
TALLAHASSEE 32399-0300

July 1, 1987

The Honorable Bob Martinez
Governor of Florida
Capitol
Tallahassee, Florida 32301

Dear Governor:

As Insurance Commissioner of the State of Florida, I am pleased to submit to you my Annual Report on Insurance in the State for the fiscal year July 1, 1986 to June 30, 1987 as provided for in Chapters 624.313 and 624.315, Florida Statutes. The figures in this Report reflect the financial condition and the importance of the insurance industry in our State. The statistics in this Report are compiled from the December 31, 1986 Annual Statements filed with this Department by insurance companies licensed in the State.

Respectfully submitted,

Bill Gunter

REPORT BY INSURANCE COMMISSIONER BILL GUNTER

The 1987 Legislative Session was a successful and challenging one for the Department of Insurance. The Department successfully sought a number of legislative changes affecting the regulatory responsibilities of the Division of Treasury, the Division of State Fire Marshal and the Department of Insurance. These successes included the enactment of legislation which relate to risk retention groups, the quality of care rendered by HMOs, procedures for resolving conflicts between building and fire codes, and legislation rewriting the law relating to securities for public deposit.

For your review and consideration, the Department has prepared a brief summary of significant legislation affecting the Department's regulatory responsibilities. If you would like additional information on any new legislation, please call Scott Carruthers, the Legislative Coordinator for the Department of Insurance, at 904/488-6392.

INSURANCE REGULATION LEGISLATION

Risk Retention (HB 649) CH. 87-282

Effective date: 7/04/87

One of the major legislative accomplishments for the Department was passage of a law regulating risk retention groups. The Federal Product Liability Risk Retention Act authorized the formation and operation of risk retention and purchasing groups to provide product liability and commercial liability insurance, but extended states limited authority to regulate these new insurance entities.

This law provides for the level of regulation allowed under the Federal Act. Risk retention groups must obtain a certificate of authority as a domestic insurer in order to be a Florida certified risk retention group.

Risk retention groups certified in another state and wishing to do business in Florida must file a statement with the Department of Insurance and other information relating to the risk retention group's financial condition.

In addition, the law requires risk retention groups to utilize agents licensed in Florida and subjects risk retention groups to premium taxes.

Purchasing groups operating in Florida must furnish information to the Department of Insurance and are made subject to certain restrictions and other provisions of the Insurance Code.

Insurance Exchange (SB 1130) CH. 87-250

Effective date: 7/02/87

Another significant legislative accomplishment for the Department was the enactment of a comprehensive law giving the Department greater regulatory control over insurance exchanges. Under the new law, capitalization requirements of an exchange underwriting member approved on or after the effective date of this act are increased from $1.5 to $3 million of paid-in capital and surplus. Thereafter, that underwriting member must maintain a minimum policyholder surplus of $2 million rather than the present $1 million. Existing underwriting members must also comply with the increased capital and surplus requirements pursuant to a predetermined schedule.

The law also prohibits persons from acquiring or purchasing 5 percent or more of the outstanding voting securities of an underwriting member or controlling company without departmental approval.

Additionally, the law changes the composition of the Board of Governors of an exchange by mandating that the Board be composed of 13 members, 7 of whom are to be appointed by the Insurance Commissioner.

Restrictions on Insurance Company Investments/ Non-Investment Graded Bonds

Unrelated to the specific regulation of the insurance exchange, the law also contains separate provisions restricting investments by insurance companies in investments not rated as investment grade. Specifically, the law limits such investments to:

(a) No more than 20 percent of an insurer's admitted assets or 200 percent of an insurer's capital and surplus, whichever is greater;

(b) No more than 10 percent of an insurer's admitted assets or 100 percent of an insurer's capital and surplus, whichever is greater, if the investments are in issuers from any one industry; and

(c) No more than 1 percent of an insurer's admitted assets or 10 percent of an insurer's capital and surplus, whichever is greater, if the investment is in any one issuer.

H.M.O. Quality of Care (HB 1385) CH. 87-236

Effective date: 10/01/87

In response to specific problems and complaints regarding the quality of care being provided by certain HMO providers, the Department proposed, and successfully urged the passage of legislation designed to better assure that HMOs provide high quality of medical care.

This law recognizes the dual nature of HMOs as insurers and health care providers and requires HMOs to implement various quality of care provisions.

Specific provisions of the bill include:

(1) Requiring HMOs and prepaid health clinics to obtain and maintain a Health Care Provider Certificate from the Department of Health & Rehabilitative Services.

(2) Establishment of quality of care requirements and standards including:

a. Requiring HMOs and clinics to maintain a program for the verification and examination of provider credentials.

b. Requiring HMOs and clinics to maintain an ongoing quality assurance program including internal peer reviews.

c. Requiring HMOs and clinics to be subject to external review of their quality assurance program at least once every three years.

d. Requiring disclosure to subscribers if certain services may be provided by non-physicians.

e. Giving subscribers the right to a second medical opinion.

(3) Authorizing more thorough examinations regarding quality of care by the Department of Health & Rehabilitative Services. Major changes include:

a. Authorizing examination when deemed necessary instead of the current restriction of only one examination per year.

b. Providing access to individual patient's medical records and records of physicians providing service under contract. Currently, records are available only if individually authorized or ordered by a court.

(4) Authorizing HRS to impose administrative penalties for violations of quality assurance requirements.

(5) Providing for an assessment of up to 0.1% of HMO and clinic annual premiums to provide for their regulation.

Guaranty Fund Assessment (SB 906) CH. 87-350

Effective date: 7/11/87

The Department successfully urged the passage of this law in order to maintain the ability of the Insurance Guaranty Association to pay claims in a timely fashion. The law increases the cap on the total annual assessments from 1 percent to 2 percent of the member's net direct written premiums in Florida for the kind of insurance included in the amount for which the assessment is made. The law also limits the coverage extended by the Florida Life and Health Insurance Guaranty Association to Florida residents and specified out-of-state policyholders.

Additionally, the law provides a tax credit against the corporate income tax or premium tax liability of an insurer equal to the amount of any assessment, other than a workers' compensation related assessment. The credit is to be taken 20 percent per year for the five years following payment of the assessment. Domestic insurers currently get a corporate income tax credit equal to an assessment.

State Comprehensive Health Association (SB 504) CH. 87-345

Effective date: 7/11/87

The Department also succeeded in reinstating key provisions of the law relating to the State Comprehensive Health Association. The State Comprehensive Health Association was established in 1982 to provide health insurance coverage to members of the public unable to obtain coverage in the normal market. To assure the affordability of such coverage a cap was placed on premiums. Expenses exceeding income from premiums are assessed against health insurance companies. In turn, the health insurers received a tax offset. At the time the enabling legislation was enacted, the premium cap and offset provisions were scheduled for repeal October 1, 1987. This bill deleted the repeal Without this action premiums would have risen substantially, potentially forcing many of the individuals under the plan to depend on the state or other sources to fund their health care cost.

Prepaid Legal Expense Insurance (HB 360) CH. 87-169

Effective date: 7/01/87

This law prevents insurers from marketing, in establisnments selling alcohol, prepaid legal defense coverage for certain criminal offenses involving the operation of motor vehicles, boats or vessels while under the influence of alcoholic beverages.

Captive Insurers (SB 1080) CH. 87-127

Effective date: 7/01/87

As a means of enhancing economic development, the Department successfully urged the passage of a law that facilitates and encourages the relocation of captive insurers to Florida. The law authorizes the formation of industrial insured captive insurers to provide insurance for large corporations. Only corporations which have gross assets greater than $50 million, employ at least 100 persons and pay annual premiums in excess of $200,000 for each line of insurance may be insured by an industrial insured captive insurer. An industrial insured captive insurer may write workers' compensation, if in excess of a specified volume. Captive insurers relocating to Florida would not be required to be domiciled in Florida.

Civil Remedy (HB 428) CH. 87-278

Effective date: 10/01/87

This law revises an existing statute to afford greater opportunity to the parties and the Department to resolve insurance related disputes subject to the civil remedy law by providing additional information necessary to evaluate and resolve the disputes.

Fraudulent Insurance Act (SB 908) CH. 87-334

Effective date: 7/10/87

This law is designed to alleviate the fear that deters some individuals with knowledge of fraud from coming forward with this information by providing them with immunity from civil suit. This law is necessary to facilitate the detection and prosecution of insurance fraud. To the extent that this law is successful in exposing fraud, it will help lower insurance costs. This law is based on an NAIC model act.

Workers' Compensation Rating Law (SB 820) CH. 87-124

Effective date: 7/01/87

The Department successfully reenacted provisions of the workers' compensation rating law. Workers' Compensation and Employer's Liability Insurance rates are subject to prior approval by the Department of Insurance. A rate to be approved must not be excessive, inadequate or unfairly discriminatory. In order to protect policyholders from changed conditions after the rate has been approved, but while the policy is in effect, which change results in an excessive rate, an excessive profits provision is utilized. These provisions were scheduled for review during the 1987 Legislative Session. As a result of that review, this law was enacted which substantially contains the existing statutory scheme.

STATE FIRE MARSHAL LEGISLATION

Fire Code vs. Building Code (HB 1337) CH. 87-287
Effective date: 1/01/88

This law is the product of a cooperative effort by the Florida League of Cities, the Florida Home Builders Association and the State Fire Marshal's Office to codify specific procedures for the resolution of conflicts between the fire and building codes. The law makes the following significant changes:

(1) Provides for a structured resolution of conflicts between the fire and building codes and assures local enforcement of all relevant fire code requirements;

(2) Requires local governments to review construction plans for compliance with applicable state minimum building codes and fire safety standards prior to issuance of a building permit;

(3) Authorizes the State Fire Marshal to establish uniform fire safety standards for certain buildings and requires local governments to adopt a specified minimum fire safety code;

(4) Authorizes the State Fire Marshal to inspect buildings subject to a uniform or minimum fire safety code and to order correction of code violations or vacation of the premises under certain circumstances;

(5) Requires local governments to employ or contract with fire safety inspectors to conduct all fire safety inspections;

(6) Provides specified criteria for certified fire safety inspectors; and

(7) Creates the Florida Fire Code Advisory Council to make recommendations to the State Fire Marshal concerning fire safety.

Fire Alarm (HB 266) CH. 87-254
Effective date: 10/01/87

This law provides for the certification, licensure and discipline of contractors who install fire alarm systems.

Boiler Safety Act (SB 160) CH. 87-361
Effective date: 10/10/87

This law creates the Boiler Safety Act and requires the Department of Insurance to adopt a state boiler code for the safe construction, installation, inspection, maintenance and repair of boilers in the state; requires adoption of the Boiler and Pressure Vessel Code of the American Society of Mechanical Engineers for new construction and installation; requires owners of existing boilers to submit manufacturers' data to the chief inspector within 90 days; provides existing boilers may be used if they are inspected and found in safe condition; provides issuance of certificates of competency to special inspectors employed by companies licensed to insure boilers in Florida.

Sparklers Regulation (SB 413) CH. 87-118
Effective date: 7/15/87

This law seeks to more clearly delineate the types of sparklers and fireworks that can be lawfully sold and used. In addition, the law:

(1) Requires the testing and approval of sparklers;

(2) Provides for the registration of sparkler manufacturers, distributors, and wholesalers;

(3) Provides that it is unlawful to possess fireworks, except for supervised public display as specified;

(4) Requires sparklers for sale to the public to be obtained from a registered manufacturer, distributor, or wholesaler;

(5) Requires a seasonal retailer to exhibit a copy of his certificate at each seasonal retail location; and

(6) Requires certain manufacturers, distributors, or wholesalers to register before selling fireworks.

TREASURY LEGISLATION

Security for Public Deposit (SB 1262) CH. 87-409
Effective date: 10/01/87

The Department was successful in enacting a comprehensive revision to Chapter 280. This revision is designed to better clarify and strengthen the act's provisions so as to provide greater protection for public funds deposited in financial institutions. The revision to Chapter 280 makes the following changes:

(1) Specifies in greater detail the collateral pledging requirements of qualified public depositories and the regulatory responsibilities of the State Treasurer;

(2) Provides procedures for meeting collateral requirements in the event of a merger of a qualified public depository with another financial institution;

(3) Specifies grounds for suspension or disqualification of a qualified public depository and increases the penalties for certain violations;

(4) Provides the Treasurer with the power to issue cease and desist orders under certain circumstances;

(5) Provides requirements on the Treasurer to publish notice of a default or insolvency of a qualified public depository, with a requirement that public depositors having claims, file such claims within a certain time period; and

(6) Authorizes a voluntary task force to make recommendations to the Treasurer or the Legislature regarding Chapter 280.

Deferred Compensation (HB 747) CH. 87-138
Effective date: 10/01/87

The law makes clarifying changes to the deferred compensation law in order to eliminate ambiguities with regard to the potential liability of the government entity that established the plan, such as liability for investment losses or market risks with regard to the investment of deferred compensation monies. In addition, it clarifies the law and makes it consistent with the Federal Internal Revenue Code in order to statutorially insure the eligibility of the plan.

Investment Bill (SB 861) CH. 87-331
Effective date: 7/10/87

This law clarifies the authority of the Treasurer to invest all trust fund and general revenue fund monies and to expand the investment authority of the Treasurer for the purpose of maximizing the liquidity and investment return on trust fund monies. It relieves the Division of Treasury from any dependence on general revenue funds by creating the Treasurer's Administrative and Investment Trust Fund to fund the division's operations. The law also provides for an administrative assessment against trust fund monies equal to .1 percent of such monies, subject to a maximum quarterly balance of $750,000, with any excess funds transferred to general revenue.

Prepaid Tuition (HB 47) CH. 87-132
Effective date: 6/30/87

The Legislature enacted this law in an effort to better enable Florida families the opportunity to plan for the postsecondary educational costs of their children. The law creates the Florida Prepaid Postsecondary Education Expense Program to provide a medium through which the cost of registration and dormitory residence may be paid in advance of enrollment in a state university or community college at a rate lower than the projected corresponding cost at the time of actual enrollment. The program is to be administered by a Board of Trustees, which shall consist of seven members to be composed of the Insurance Commissioner and Treasurer, Comptroller, Chancellor of the Board of Regents, Executive Director of the State Board of Community Colleges, and three members appointed by the Governor and subject to confirmation by the Senate.

The board shall be administratively housed within the Division of Treasury of the Department of Insurance, but it shall independently exercise the powers and duties specified in the act.

SUMMARY OF OTHER RELEVENT LEGISLATION

Insurance Premium Tax (SB 145) CH. 87-99

Effective date: 7/01/87, except as otherwise provided

Contains a number of tax provisions. Among them is a prospective change to the method by which insurance companies are taxed.

Under current law, foreign and alien insurance companies pay a 2 percent tax on premiums written in Florida. Foreign companies with regional home offices in Florida are granted a 50 percent credit against the tax. Domestic insurers which meet certain statutory criteria are exempt from the tax.

Effective July 1, 1988, all insurance companies will be required to pay a 2.25 percent tax on insurance premiums written in Florida. Also, all companies will be entitled to a credit equal to 10 percent of the payroll for employees based in Florida. The amount of the credit is limited to 50 percent of a company's premium tax liability.

It also moves the July, 1988, payment of quarterly estimated premium taxes to June, 1988. This has the effect of increasing the collections received in the 1987-88 budget year by approximately $43 million.

Directors & Officers Liability (SB 1096) CH. 87-245

Effective date: 7/01/87

In an effort to encourage the availability of directors' and officers' liability insurance coverage, the Legislature enacted significant changes with regard to the liability of directors' and officers' of profit and non-profit corporations. Under this law, a new liability standard is extended to certain persons offering their services as directors of the following types of organizations:

(1) for-profit and non-profit corporations;
(2) trustees of self-insurance trust funds; and
(3) directors or supervisory committee members of credit unions.

This new liability standard creates limited civil immunity to directors and certain officers of the types of organizations listed below.

The limited civil immunity applies to the following persons:

(1) all directors and uncompensated (except for expense reimbursement) officers of non-profit corporations,
(2) directors of for-profit corporations;
(3) all directors and supervisory committee members of credit unions; and
(4) all trustees of self-insurance funds.

Such persons offering their services to the above specified types of organizations are not personally liable for monetary damages to any person for any statement, vote, decision, or failure to take an action regarding organizational management or policy by an officer or director unless the officer or director:

(1) breached or failed to perform his duties; and
(2) this breach or failure constitutes:
  a. a violation of a criminal law;
  b. a transaction resulting in improper personal benefit;
  c. in third party actions, recklessness or an act or omission committed in bad faith or with malicious purpose or in a manner exhibiting wanton and willful disregard of human rights, safety, or property; and
  d. in shareholder suits, acts with conscious disregard for the best interest of the corporation or with willful misconduct.

Insurers are required to report to the Department of Insurance any claim or action for damages claimed to have been caused by error, omission, or negligence in the performance of the officer's or director's services. Reports shall be filed with the Department no later than 60 days following the occurrence of the event. For purposes of complying with this requirement, please note that a form is being developed and will be forwarded to companies for reporting purposes.

Uninsured Motorist Insurance (HB 1029) CH. 87-213

Effective date: 10/01/87

Currently named insureds having more than one motor vehicle and purchasing uninsured motorist coverage have a total coverage on any one vehicle equal to the sum of the policy limits on all of the vehicles. Under this bill the insured may elect to purchase uninsured motorist limits which would not be added together with a result that the applicable limits will be the limits for the particular motor vehicle involved in the accident.

If a person is injured while occupying a motor vehicle which is not owned by him or a family member residing with him, he is entitled to the highest limits of uninsured motorist coverage afforded for any vehicle for which he is a named insured or insured family member. The rates for these policies must reflect a reduction in the uninsured motorist coverage premium of at least 20 percent and must be preapproved by the Department of Insurance.

Motor Vehicle Emissions Study Commission (HB 279) CH. 87-294

Effective date: 7/09/87

Creates a thirteen-member Motor Vehicle Emissions Study Commission to conduct a study of exhaust emissions inspection and report its findings and recommendations to the Governor and the Legislature no later than March 1, 1988. The report is to include an assessment of federal government findings relative to Florida's air quality nonattainment areas and recommendations for compliance prior to the imposition of federal sanctions.

The Study Commission will be based in the Department of Highway Safety & Motor Vehicles for administrative purposes. Two full-time positions are authorized for the study. The act expires on December 31, 1988.

Bail Bondsmen and Runners (SB 614) CH. 87-321

Effective date: 07/10/87

Postpones the date for the Sunset review of Chapter 648, regulating bail bondsmen and runners, from October 1, 1988, to October 1, 1990.

This law also requires bondsmen to give copies of all collateral security documentation to the person placing the collateral security with the bondsmen and to give an informational notice, which explains the bond's restrictions and the bondsman's right to rearrest, to the principal.

Continuing Care Facilities (HB 660) CH. 87-136

Effective date: 10/01/87

Amends Chapter 651, F.S., relating to continuing care contracts. A continuing care facility, as defined in s. 651.011(2), F.S., is a facility which furnishes shelter, food and nursing care or personal services to elderly individuals pursuant to an agreement.

Generally, the bill amends various sections of Chapter 651 relating to granting certificates of authority, release of escrow funds, and facility reporting requirements.

Condominium Association Self-Insurance (HB 734) CH. 87-46

Effective date: 10/01/87

Provides authorization for a group of ten or more condominium associations to self-insure by organizing a commercial self-insurance fund. Commercial self-insurance funds which are organized by condominium associations will be regulated by the Department of Insurance.

Health Care; Health Maintenance Organizations (HB 121) CH. 87-273

Effective date: 10/01/87

Amends the definition of "health maintenance organization" to require that physician services provided by HMOs include medical doctors, osteopathic physicians, chiropractic physicians and podiatrists. When a subscriber requests care from one of these physicians, the HMO is required to provide such care as long as the condition for which treatment is sought is within the scope of practice of that physician.

Also amends the definition of "minimum services" to include physician care provided by physicians licensed under Chapters 458, 459, 460 and 461. Every health maintenance organization must provide emergency care, inpatient hospital service, and at least two of the other three "minimum services".

Life Insurance Claim Form (SB 134) CH. 87-37
Effective date: 1/01/88

Provides for the development of a uniform industrial life insurance claim form to be used by claimants for life insurance benefits.

Health Insurance - Acupuncture Coverage (HB 461) CH. 87-176
Effective date: 10/01/87

Requires individual and group health insurance policies that provide reimbursement for acupuncture services, to cover these services when they are performed by a certified acupuncturist.

Mandated Benefits (HB 619) CH. 87-188
Effective date: 6/30/87

Requires review of proposed mandated benefits by the Legislature. Each Session, a number of bills are introduced which mandate the inclusion of certain health benefits in insurance policies. This bill establishes guidelines to assist the Legislature in assessing the social and financial impact of a proposed mandated benefit.

Home Health Care Services (HB 595) CH. 87-262
Effective date: 7/02/87

Requires group health insurance policies providing coverage on an expense incurred basis to provide coverage for home health care, furnished by a licensed home health care agency.

Provides that coverage may be limited to care under a plan of treatment prescribed by a licensed physician. The State Health Plan and Multiple Employer Welfare arrangements are exempt from the requirements of this bill.

Also requires individual and group health insurance policies that provide coverage for mastectomies to also offer coverage for a prosthetic device or reconstructive surgery incident to mastectomies. Insurers may charge an appropriate additional premium for this coverage.

Sundown/Sunset/Review and Repeal Dates (SB 389) CH. 87-50
Effective date: 5/28/87

Provides for future repeal and legislative review of provisions relating to insurance rates and rating organizations, insurance contracts, medical malpractice insurance, motor vehicle and casualty insurance contracts and insurer reporting.

DIVISION OF STATE FIRE MARSHAL

The Division of State Fire Marshal is responsible for a variety of activities involving the protection of life and property from the ravages of fire. Florida Statutes, Chapter 552, "Manufacture, Distribution and Use of Explosives"; Chapter 633, "Fire Prevention and Control"; and Chapter 806 "Arson", govern the Division's major areas of responsibility.

The Division operates four Bureaus and one section. The Bureau of Fire and Arson Investigation responds to requests from agencies for investigations of fires which occur under suspicious or undetermined nature. The Bureau of Fire Prevention promulgates rules governing fire safety and inspects state-owned or -leased buildings to assure compliance with fire codes. The Bureau of Explosives and Fire Equipment regulates fire equipment dealers, fire protection contractors and explosives handlers. The Bureau of Fire Standards and Training provides training and certification for fire fighters. The Fire Incident Reporting Section receives and compiles data on fires from fire departments throughout the state. Staff from these bureaus are located in seven field offices and at the State Fire College in Ocala.

The mission of the Division can be accomplished through assistance to and involvement in the fire service community to ensure protection of the citizens of Florida.

FIRE INCIDENT REPORTING SECTION

The Florida Fire Incident Reporting Section (FFIRS) is designed to collect valuable information on fire incidents gathered by fire departments around the state. The system utilizes a standardized coding structure and reporting format which, in turn, is part of a national network for fire incident reporting.

The primary mission of FFIRS is to collect, process and analyze data on fires. This information is then transmitted to fire departments so that they may upgrade the level of fire protection enjoyed by Florida's citizens and visitors. Reports containing data on local or statewide fire incidents are also provided to municipal and county officials, legislators and public planners upon request.

During 1986 FFIRS assisted the federal government in the testing and deployment of fire incident software for use with personal computers. Four Florida fire departments were recruited to test the software for several months and comments based on their experiences were considered in the program's final revision.

1986 also saw a decrease in the number of incident forms which were handled by department staff. A total of 247,334 paper forms were received and edited by FFIRS and entered into the department's mainframe computer. In addition, approximately 69,170 incidents were submitted by fire departments on magnetic tape. This brought the total number of incidents processed by the department to 316,504, or a 4.2 percent decrease over last year.

The second annual report on fires, entitled "Florida's Fire, 1984/85", was completed. Technical improvements in the production of the report made the document easier to read and consequently more useful to the fire service. The next report is in the latter stages of preparation and should be completed in the near future.

In 1987, FFIRS staff are looking forward to a very challenging year. While a number of fire departments have already purchased and begun using the personal computer software, continued recruitment and training of departments on the use of this program will be a high priority of this office.

As technological developments in the way information is managed has changed some fire service operations, FFIRS staff have been called upon to broaden their view of fire data reporting.

Volunteer departments are joining together to provide county-wide coverage under one administrative authority. Other departments are beginning to use personal computers for management functions related, for instance, to the number of personnel and equipment required to work a particular type of fire, a study of response times, and comparisons between fires in a given location to determine the likelihood of incendiary or suspicious ignition factors. Computer-aided dispatch services are being used more frequently to coordinate a departments' response to an incident. FFIRS staff will assist departments by providing computer program documentation and program tapes which can be loaded into a mainframe computer, and draw on the expertise of departmental management systems staff for technical assistance. A pair of personal computer demonstration diskettes may be obtained from FFIRS by departments considering the use of that medium for incident reporting.

County-wide volunteer departments will be given training on the reporting system and FFIRS staff will compile, edit and process their incident reports. These services are offered at no cost to the department and provide valuable information which may not be collected or analyzed because of a shortage of funding.

FFIRS will also focus on the recruitment and training of additional departments to broaden the base of the incident reporting system. We believe that use of the personal computer software will be of tremendous value in securing greater participation in reporting fire incidents

Several key tasks facing the section are the integration of commercial personal computer software into the reporting system, participation in the development of a hazardous materials incident reporting system and providing fire departments with assistance in implementing the Emergency Services and/or the Fire Prevention Management Information Systems Software.

FFIRS staff look forward to meeting the challenges presented by the tasks ahead of us this year.

BUREAU OF FIRE AND ARSON INVESTIGATIONS

Arson is a concern of all Florida citizens due to the potential loss of life and destruction of property. The Bureau's workload increased 73% from 1979-80 to 1986-87 fiscal year. The average dollar loss per arson case for the 1986-87 fiscal year was $24,522. In 1974, it was less than $10,000 per case. During 1986-87, the Bureau responded to 3,103 investigations. Arrests for the crime of arson in Florida from 1979-80 to 1986-87 increased 55%.

Among the Bureau's improvements are the development of a Mobile Fire and Arson Investigation Unit, installation of radio communications for approximately 90% coverage of the state, automation of the headquarters and field records with computer and initiation of a 24-hour service office in the Tallahassee headquarters office. The Bureau was also the recipient of its second U. S. Department of Justice Arson Prevention and Control grant.

The Mobile Fire and Arson Investigation Unit is constructed similar to a heavy rescue unit, but the design is specifically for equipment to perform extended investigations of fires. The unit has a portable gas chromatograph, video recording equipment, various electronic hydrocarbon detectors, portable lighting, power generators, power tools, etc. The unit is utilized on large fire losses. A team from the Bureau responds with the unit and integrates with local investigative authorities.

The Bureau will be improving its radio communications to 90% coverage of the state this year. This will improve their response time to requests for fire investigations and reduce unnecessary travel time.

The Bureau has all eight field offices on-line with computers. This permits the storage and cross referencing of names, addresses, etc., of persons having multiple fires in Florida. The computer system permits reports to be generated and transmitted by computer. This improves management of the Bureau's administrative activities, improves and increases information available to investigators and reduces cost. The Bureau is presently working on the automation of fire/arson investigation reports. The reports will be generated by the field offices and forwarded to Tallahassee by computer.

The Bureau will have a 24-hour service office in Tallahassee with a toll free telephone number for agencies to call for investigations. A duty officer will be assigned after normal work hours to receive calls, notify investigators, etc. The 24-hour operation is anticipated to be operational before the end of 1987.

The Bureau is the recipient of its second U. S. Department of Justice Arson Prevention and Control Grant. One priority goal of the grant is a system for collecting and analyzing data to target and identify arson. The grant provided funding for the purchase of a VAX mini computer. The system will provide the bureau's fire and arson investigation activities with greater security of records, flexible and more timely analysis of data, access to the Secretary of State's Corporate Records files, access to bureau information by investigators on a 7 day a week - 24 hour a day basis and greater control over sensitive criminal intelligence information developed during arson investigations.

FISCAL YEAR JULY, 1986 – JUNE, 1987

BUREAU OF FIRE PREVENTION

The duties and responsibilities of the Bureau of Fire Prevention are set forth in Chapter 633, and Sections 255.25, 393.067, 394.879, 396.176, 400.441, 509.215, and 526.141, Florida Statutes. These include the following:

a. Prevention of fires.

b. Storage, sale, use, keeping, manufacture, handling, transportation, or other disposition of combustibles, explosives flammables, gunpowder, carbide, and crude petroleum any of its products; and the State Fire Marshal may prescribe the material or receptacles and building to be used for such purpose.

c. Installation and maintenance of fire alarm systems and fire-extinguishing equipment.

d. Construction, maintenance, and regulation of fire escapes.

e. Means and adequacy of exits from all buildings in event of fire.

f. Establishment of uniform fire safety standards for state-owned and state-leased buildings and for all hospitals, nursing homes, adult congregate living facilities, correctional facilities, public schools, public lodging establishments, public food-service establishments, elevators, migrant labor camps, mobile home parks, recreation vehicle parks, residential and nonresidential child care facilities, and self-service gasoline stations, of which standards the State Fire Marshal shall be the final administrative interpreting authority.

g. Inspection of state-owned or state-leased buildings on a recurring basis, not later than every two years, and to ensure that "high-hazard" occupancies are inspected at least annually for the purpose of ascertaining and causing to be corrected any conditions liable to cause fire or endanger life from any violation of the fire safety standards for state-owned or state-leased buildings.

h. Interpret the state's fire safety standards.

i. Review building construction plans for compliance with fire safety standards.

j. Serve (through the Division Director and the State Fire Marshal) as the final administrative interpreting authority of the state's fire safety standards.

k. Serve as a "service bureau" for architects, engineers, fire protection officials and others. This includes serving as a central reference point and source of information, interpreting technical provision, sponsoring symposiums, conferences, etc., on fire related matters.

l. Maintain comprehensive records, including copies of fire safety inspection reports of each state-owned and state-leased facilities.

The Bureau coordinates with approximately 700 fire departments with which the Bureau works. We also maintain a working relationship with building officials, city and county officials, insurance companies, loss management representatives, building contractors, technical personnel from other state agencies, architects, engineers, and others with an interest in fire protection. All of which consult the bureau for technical assistance on fire laws, administrative rules and codes or standards and the resolution of deficiencies.

The bureau is charged with the responsibilities to conduct annual fire safety inspections of high hazard properties such as prisons, juvenile detention centers, mental institutions, etc., and to complete a fire safety survey of other state-owned and state-leased facilities at least every two years. Three Fire Protection Specialist Supervisors and 18 Fire Protection Specialists are located in eight field offices to respond to statutory mandates. The Fire Protection Specialists inspected approximately 12,000 buildings during fiscal year 1986-87. The figure reflects statutory mandates, including special projects presented to the bureau by citizens due to the state's increase in population and fire safety awareness.

Code enforcement continues to be a significant activity of the bureau. Of the 20 cases forwarded to the Bureau chief for further action, 14 were resolved after consultation with department staff; four are still pending legal action and have been assigned dates for administrative hearings and two buildings were ordered vacated by the circuit courts of Florida for failure to comply with fire safety standards.

The plans review section is staffed by three professionals and one support staff person. In fiscal year 1986-87, a monthly average of 49.5 plans were reviewed for compliance with fire protection and safety standards. A total of 595 plans were reviewed by the staff. Statutory mandates governing response time for reviews necessitated for shifting of workload responsibilities to meet other statutory requirements. This section was also helpful in providing special assistance to individuals, design professionals, fire officials, building officials and others involved with complex fire protection projects, saving the public millions of dollars.

Section 633.05, Florida Statutes, states that "Uniform fire safety standards shall be reviewed and republished as the need arises." Other provisions require updating of rules or the development of new standards. Several administrative rules were revised or adopted during this period.

Fire Protection Specialists from the bureau have provided technical assistance to fire officials, local governments and the general public on questions relating to the migration of hazardous materials from underground tanks and containers, as well as information concerning materials substance under the "Right to Know Act" of Florida.

The highlight each year continues to be the Annual State Wide Fire Prevention Conference, which has earned an excellent reputation throughout the nation. Internationally known specialists in the fire service field attend and participate in the program. Additional features of this conference include the announcement of "Fireman of the Year", Volunteer Fireman of the Year" and "Inspector of the Year", who are chosen on a statewide basis.

BUREAU OF EXPLOSIVES AND FIRE EQUIPMENT

The Bureau of Explosives and Fire Equipment is responsible for the administration and enforcement of Chapter 552, Florida Statutes, "Explosives", and Sections of Chapter 633, Florida Statutes, concerning licensing, regulation, examining and training of fire equipment dealers, fire equipment permit holders and fire protection system contractors. It's primary function is to safeguard the lives and property of the citizens of Florida through the enforcement of laws and regulations concerning explosives and fire protection equipment.

As the regulatory agency for the three programs, this Bureau investigates the illegal use and/or possession of explosives; investigates the improper installation and servicing of portable fire extinguishers and fire suppression systems and investigates the illegal actions of any fire protection system contractor.

All persons holding licenses, permits and certificates are qualified by examination at particular levels of expertise in the three separate industries. All applicants for fire equipment dealer licenses and permits must attend a 40-hour training course prior to sitting for an examination.

There are nearly 4,000 licenses and permits issued annually through the Bureau of Explosives and Fire Equipment. There are 10 full-time positions assigned to the Bureau to serve the state. Special Investigators assigned to the Bureau are located in Ft. Lauderdale, West Palm Beach, Orlando, Tampa, Jacksonville and Tallahassee. The Special Investigators have received a combined total of 540 hours training to keep up-todate on the latest procedural and technical advances in the three industries regulated.

During the 1987 legislative session, two bills were passed which will require implementation by the Bureau. These were the boiler inspection program and the fireworks registration program.

LICENSES ISSUED - Fiscal Year 1986-87:

Type and Class	*Number Issued*
04-05 Manufacturer-Distributor Explosives	16
06-05 Dealer - Explosives	15
07-06 User - Explosives	342
09-06 Blaster - Explosives	646
07-10 Fire Protection System Contractor I	41

Governmental Agency Technical Assistance	134

BUREAU OF FIRE STANDARDS AND TRAINING

The Bureau of Fire Standards and Training is the vehicle through which the vast fire service training and education responsibilities of the Division of State Fire Marshal are executed. The Bureau has the responsibility for functions relating to qualifications and standards for employment, training and education of firefighters, certification of fire inspectors, administration of the fire service educational incentive program, curriculum development and submission of reports and recommendations to the Division of State Fire Marshal concerning the improvement of Fire Service Training and Education.

The Bureau is also responsible for the administration of the Firefighter Educational Compensation program. As of July 1, 1987, there were 1,934 firefighters participating in this program, 417 at the Baccalaureate level and 1,517 at the Associate level. 73 firefighters seeking entry to the program were rejected. The total disbursement of monies through this program for Fiscal Year 1986-1987 was $1,460,640.00.

The Bureau of Fire Standards and Training is sub-divided into three (3) sections: Standards, Training, and Curriculum Development.

The Standards Section is responsible for the administration of the Florida firefighters minimum standards training program. This section also reviews the pre-employment paper work to ensure that the employment was within statutory limits, prepares and administers examinations covering both cognitive and psychomotor skills developed in the minimum standards curriculum, and certifies firefighters, instructors, fire inspectors, and training centers.

Professional consultations continue to be a growing function of the Bureau of Fire Standards and Training. This past year the Bureau received a number of requests from municipalities to conduct studies and surveys relative to manpower, site location, equipment and training needs.

The Curriculum/Public Education Section reports that the State Fire College in conjunction with Central Florida Community College now has the largest fire science program in the State of Florida.

This section has devoted a great deal of time to Public Education. The Curriculum Coordinator has succeeded in implementing the Learn Not To Burn Curriculum in four county school systems.

Two additional programs have been added at the Fire College - Auto Extrication and Rescue from Ground Level and Heights. In addition many training seminars were held throughout the state in order to certify people in C.P.R. One session was held at the Larson Building where 60 people were certified.

This section is also administrating two Federal Grants where there is participation from seven southeastern states. The first grant is for Training Resource and Data Exchange (T.R.A.D.E.). The purpose of the T.R.A.D.E. grant is to have a network of resources that are available for use. To date we have published a rescue manual and outline on Crash Rescue. The second grant is the National Community Volunteer Fire Prevention Program. The purpose of this grant is to get civic groups and fire departments together to present fire prevention programs. Over $180,000 in grant monies will be dedicated to these projects.

DIVISION OF LIQUEFIED PETROLEUM GAS

The Division of Liquefied Petroleum Gas is responsible for the administration and enforcement of Chapter 527, Florida Statutes, entitled "Sale of Liquefied Petroleum Gas." The Division is charged by this statute to enforce laws and regulations in the interest of public safety where LP gas is stored,, transported, distributed and utilized. The Division's public responsibility for LP gas safety begins when the product enters the state borders and continues until the product is safely consumed by the public.

Chapter 527, Florida Statutes, provides for state regulation of a highly technical and widely used commodity-liquefied petroleum gas. The unique characteristics of liquefied petroleum gas require a high level of expertise and special laws and regulations. The enforcement of the provisions of this law is essential for the public welfare for protection against loss of property, health and life by fire or explosion. The provisions of Chapter 527, Florida Statutes, insure that only competent persons engage in the business and that compliance with acceptable safety codes and standards is achieved.

Chapter 527, Florida Statutes, provides for rule making by due process. Under this provision, the Division adopts National Fire Protection pamphlets for safety. These national standard codes provide the safety guide for the storage, handling and utilization of liquefied petroleum gas, and enforcement of these codes is the responsibility of the Division of Liquefied Petroleum Gas Inspectors.

The Division has been certified by the Federal Office of Pipeline Safety to enforce the Pipeline Safety Act as it applies to liquefied petroleum gas pipelines. The Pipeline Safety Program is financed on a 50/50 basis with the US Department of Transportation.

Personnel of the LP Gas Division organize and present safety seminars and workshops on subjects dealing with safety practices wherever LP gas is involved. They also serve local authorities as experts in the field of code interpretation and acceptable LP gas safety practices.

The Division rules on the acceptability of proposed plans for the installation of bulk LP gas storage. The Division's inspectors follow-up with on-site inspections of these installations to assure compliance with adopted safety standards. In addition, Division inspectors routinely inspect all installations where LP gas is sold. There are approximately 3,000 licenses issued annually through the Division of Liquefied Petroleum Gas. License revenue is the prime source of the LP gas safety enforcement budget. There are 17 full time positions assigned to this Division to serve the state. Personnel are located in West Palm Beach, Orlando, Tampa, Jacksonville and Tallahassee.

The Division's responsibility is to promote LP gas safety in the State of Florida for the protection of the public health, safety and welfare.

Licenses Issued-Fiscal Year 1986-87

Type and Class		*Number Issued*

INSURANCE DEPARTMENT SERVICE OFFICE OPERATIONS

The Insurance Department has in operation a Bureau Headquarters Office in Tallahassee and ten field Service Offices in order to offer localized insurance consumer services to the public in designated areas throughout the State. During the calendar year 1986, the field operations assisted Florida citizens and others on 313,148 complaints, claims and inquiries resulting in adjustments paid to claimants totaling $18,602,976. The Insurance Consumer Hotline in the Tallahassee headquarters provides greater access to the Insurance Department to assist the public with insurance inquiries and complaints. During 1986, a total of 151,485 telephone calls were handled. The locations of our Tallahassee Field Operations and the Service Offices are as follows:

FLORIDA DEPARTMENT OF INSURANCE
CONSUMER SERVICES OFFICES

DAYTONA BEACH
955 Orange Avenue
Suite M
Daytona Beach, FL 32014
(904) 254-3920
Serving Flagler, Marion, Putnam and Volusia counties.

FT. LAUDERDALE
200 S.E. 6th Street
Suite 404
Ft. Lauderdale, FL 33301
(305) 467-4339
Serving Broward county.

FT. MYERS
2180 West 1st Street
Suite 208
Ft. Myers, FL 33901
(813) 337-5339
Serving Charlotte, Collier, DeSoto, Glades, Hendry, Highlands and Lee counties.

JACKSONVILLE
111 Coastline Drive, East
Suite 410
Jacksonville, FL 32202
(904) 359-6146
Serving Alachua, Baker, Bradford, Clay, Dixie, Duval, Gilchrist, Lafayette, Levy, Nassau, St. Johns Suwannee and Union counties.

***TAMPA**
1313 N. Tampa Street
Suite 809
Tampa, FL 33602
(813) 272-2330
Serving Hardee, Hernando, Hillsborough, *Pasco, and Polk counties.

MIAMI
401 N.W. Second Avenue
Room 750
Miami, FL 33128
(305) 377-5235
Serving Dade and Monroe counties.

ORLANDO
400 W. Robinson Street
Suite 401
Orlando, FL 32801
(305) 423-6105
Serving Brevard, Citrus, Lake, Orange, Osceola, Seminole and Sumter counties.

PENSACOLA
160 Governmental Center
Suite 515
Pensacola, FL 32501
(904) 436-8040
Serving Bay, Calhoun, Escambia, Gulf, Holmes, Jackson, Okaloosa, Santa Rosa, Walton and Washington counties.

ST. PETERSBURG
3160 5th Avenue North
Suite 135
